

Total Marina Package and MBS Payments Offer Online Payment Solutions to Marinas

Santa Monica, CA - The Total Marina Package has recently partnered with MBS Payments, becoming the first Marina Management Software to offer online payments to marinas. This partnership adds to the extensive suite of features that Total Marina Package currently offers, drastically enhancing communication between marina and slip tenant.

Total Marina Package marinas who offer this service will be able to accept payments via their current website. Slip tenants will be able to Login, track payment history, and make a one-time or recurring payment with debit, credit card or eCheck. "Slip tenants already are used to making online payment with other monthly bills. Why can't they have the same online payment convenience with their marina?" –Freddie Capshaw, Co-Founder of MBS Payments.

The MBS/Total Marina Package partnership adds online capabilities to the Total Marina Package's current billing and statement creation capabilities. This is our first step to providing a full-featured boater self-service center online.

"I am thrilled to partner with a company like MBS Payments, not only do we have products that enhance each other's value, we share the same passion for providing top quality products and services to our customers." - Annette Kord CEO of Kord Information Systems

"We are extremely proud to be partnered with Annette Kord, designer of the Total Marina Package. She has a tremendous knowledge of the industry, and her experience in marina management systems is second to none," says Jesse Ohliger, Founder and CEO of MBS Payments."

Kord Information Systems, LLC

Annette Kord has been writing business critical financial software since 1981, she became involved in the Marina industry in 1994, and hasn't left since. She recently released the **Total Marina Package**, an integrated access control and marina management system that provides comprehensive and powerful features to meet the needs of Marinas, Yacht Clubs, Dockominiums, Dry Storage facilities and campgrounds.
